

## NUK® Pacifiers and Accessories

Sucking is a natural reflex in babies that exercises the tongue and mouth muscles while producing a soothing effect. All NUK pacifiers feature an orthodontic nipple with NUK's patented air vent technology, which mimics the shape and feel of the mother's breast and allows natural development of the jaw. The NUK orthodontic nipple is the closest alternative to natural breastfeeding and supports seamless switching from breast to bottle without confusion.

*New in January, 2010:*

**\*Genius™ pacifier:** Revolutionary design features BPA-free, extra thin silicone for maximum softness and flexibility, which reduces pressure on the jaw and teeth. Orthodontic nipple is available in three sizes, making it the first silicone pacifier for babies age 18 months and older. SRP: \$ 3.99

**\*Rose n' Blue pacifiers:** Sweet designs in classic colors, BPA- free with orthodontic nipple in both latex and silicone versions. Available in two sizes. SRP: \$3.96 / 2pk latex & \$4.89 / 2pk silicone

**\*Trendline pacifier:** NUK's classic design, BPA- free and orthodontic shape with a clean, modern look. Silicone nipple available in two sizes. SRP: \$4.89 / 2pk

**\*EZ-to-hook™ carry case:** Innovative pacifier holder with clip for moms on the go. Hygienic storage compartment can hold two pacifiers or nipples with ventilation holes to prevent moisture build up. Ergonomic handle hooks easily onto the stroller or diaper bag. Available in blue or orange. SRP: \$3.48

**\*Universal pacifier clip:** Unique dual-function design works with all NUK pacifiers, with and without handles. Clip works easily with one hand; BPA- free; silicone loop attaches securely to pacifier on

one side, to baby's clothing on the other with plastic clip. No metal, so not harmful to baby.  
Available in blue and green. SRP \$3.99
